

IF IT'S NOT MARKED

IT'S NOT WORTH IT

- A** Manufacturer's Origin Mark
- B** British Standard Number
- C** BASEC Marking
- D** Harmonised Cable Mark and Harmonised Designation
- E** Conductor Size
- F** Year Letter
- G** Origin of Manufacture
- H** Harmonised Core Colours

It's a fact that unmarked and poor quality cable is still finding its way onto the UK market. If installed it could prove to be downright lethal. With new legislation it's now vital that you specify and install only cable from a reputable manufacturer. So be sure to check that the cable you're using has the correct markings, like the ones shown here. To help you, Draka has produced a really useful pocket guide and you can get one free by visiting www.drakauk.com. You can also join our campaign by sending us examples of cables that you think are not up to the mark. Of course, by specifying Draka cables you can be sure you are benefiting from the very best quality and performance available.
